**Technology Services Offered**

7 South Consulting offers a variety of services from the virtual to the physical to keep you focused on the important things. Web designing services to installation of software and hardware, we are a technology firm dedicated to helping your business reach its full potential. We know technology, so you don't have to.

**Company Profile**

7 South Consulting, Inc. was founded in **1996** primarily as a distributor of scalable phone systems. As the Internet became widespread, focus turned from phone communications to Internet communications offering web design services. In 1999, procuring web servers was a way to offer clients a "one-stop shop" for Internet presence. While Internet service was still the main focus of the business, custom programming and network solutions became an addition to the services repertoire. As of 2006, 7 South Consulting has been certified as a **Microsoft Small Business Specialist**. As a Microsoft Small Business Specialist, we can help your business thrive. To achieve Small Business Specialist status, we've been trained to help businesses like yours better respond to your technology challenges. As a result, we can focus on your unique IT needs, assisting you in making smart technology decisions for your company.

**On-Site Support**

We offer support for both Microsoft PC and Server platforms; Specifically Windows 2000, XP, Vista, 7, Server 2000, 2003 and 2008. Below is detail of each maintenance plan.

**E-Mail Defense – Virus and Spam Protection**

For organizations looking to automatically scan their incoming and outgoing email for viruses and spam, we suggest MX Logic. This innovative method is extremely effective in preventing **spam** and **viruses** from ever reaching your company's mail infrastructure. For less than a dollar a day you can use e-mail like you did 10 years ago. No threats, just a great way to communicate.

**Website Design**

A professional, well laid out, informative web site speaks volumes for your business! It inspires confidence in your potential clients that they are dealing with a professional, organized and efficient company. We have serviced clients from many different areas; Mortgage companies, construction and cleaning services, just to name a few. Each website is unique and tailored for each client's needs. While there are no set prices for web development, we will work within your budget to create a web presence that represents your company with the class it deserves.
